## EXPERIENCE

Jul.2022 - Present | Resume Genius

### SENIOR UI / UX DESIGNER Full-time

- Independently build and maintain the company-wide Design System, ensuring consistency, scalability, and reusable components, while significantly boosting development efficiency.
- Benchmark design patterns by analyzing competing products.
- Review current interfaces to identify pain points and usability challenges.
- Keep up-to-date with the latest design trends, tools, and best practices, and shared hands-on knowledge-sharing sessions to the design teammates.
- Build interactive mockups to simulate real product behavior.
- Continuously refine and evolve designs to identify pain points and challenges. Implement solutions aimed at enhancing usability and engagement by 24%.
- Prepare developer-friendly specs with clear annotations.
- Cross-national team development, co-working with developers in India.
- Balance business goals, technical constraints, and user experience in every design solution.
- Apply AI-driven analytics to identify usability issues and validate design hypotheses, and conduct comprehensive UX analysis.

Dec.2022 - Nov.2024 | Plural

### UI / UX DESIGNER Freelance

- Performed a thorough competitive analysis to identify strengths and weaknesses.
- Organized sitemap, page-level architecture, customer journey and user flows.
- Designed wireframes and mockups for backend systems, user dashboards, and a blog-style content editor to streamline workflows and improve usability.
- Crafted consistent design systems (colors, typography, spacing, etc.) from scratch.
- Delivered UX insights and proposed UI solutions from a consulting perspective
- Oversaw and uphold a systematic organization of design files.

May.2020 - Jun.2022 | YOTTA

### SOLE UI / UX DESIGNER Full-time

- Mapped user flows and identify user needs more clearly.
- Collaborated closely with front-end and back-end developers effectively.
- Created feature-driven interfaces aligned with new product functionality.
- Crafted mascot and extend it into a cohesive brand visual series.
- Enhanced user experience with micro-interactions and animated SVGs smoothly.
- Leveraged Google Analytics to optimize UI/UX performance.
- Coordinated with marketing and cross-functional stakeholders efficiently.
- Continuously evaluate and refine current UI for better usability results.
- Delivered tailored UI/UX solutions for sub-brand initiatives.

Nov.2019 - Mar.2020 | Brokery / Govern Agility

### WEB UI DESIGNER Freelance

- Created UI elements, animated image, and design user flow.
- Worked on web design project by Webflow.

Oct.2018 - Jul.2019 | Concept projects / School projects

- Graduate project [APP UI / UX Design] / Urban screen group project
- UI daily challenge
